ABOUT ME

I'm a Front-End Developer with 2+ years of experience building responsive and high-performance web applications. I focus on creating clean, scalable UI with strong attention to detail. I also have working knowledge of backend tools like Node.js, Express.js, and MongoDB, allowing me to collaborate across the full stack. Passionate about clean code and continuous learning.

WORK EXPERIENCE

GBIM Technologies – Front-End Developer **DEC 2024 – JUNE 2025**

- Working on responsive, high-performance web apps using React.js and Next.js.
- Collaborate with UI/UX teams and ensure scalable, clean code with Tailwind CSS.
- Focus on speed optimization and cross-browser compatibility.
- Currently working on the ASBS MBA college website project, focused on delivering a responsive, SEO-optimized platform using React.js, Next.js, and Tailwind CSS.
- The site highlights ASBS's international MBA program, featuring global exposure in Slovenia, Germany, and Austria.
- Responsible for frontend architecture, component design, and seamless CMS integration to enhance user experience and content management.

Boppo Technologies – Front-End Developer **Sep 2023 – Oct 2024**

- Built scalable web platforms using Next.js and integrated third-party APIs.
- Led feature development and mentored junior developers.
- Ensured on-time delivery and enhanced user experience through performance tuning.
- Developed "Boppo Go," a multi-vendor e-commerce platform with Next.js tailwind css.
- Built admin dashboards and collaborated on key payment and product flows.
- Worked on third-party API integration and mentored new devs on Next.js structure and coding practices.

The Adroit – React Developer **Jun 2023 – Sep 2023**

- Converted UI/UX wireframes into responsive components using React.js.
- Developed modules for classes, placements, and counseling support.
- Gained hands-on experience in state management and modern front-end tools.
